15.Multidisciplinary / interdisciplinary

It is to be realized that quality of education should not be considered in fragmented terms but in a more holistic and expanded manner.A holistic and multidisciplinary approach in education is indispensible for developing well-rounded individuals that possess multifaceted functional capacities. A well identified set of skills and values is needed to develop holistic individuals at different stages of learning to meet the emerging challenges and needs of the modern era. In this regard, NEP 2020 rightly remarks that education is fundamental for achieving full human potential. A quality higher education must prepare the students for more productive and satisfying lives. The Sullamussalam Arabic College is always in forfront of promoting the interdisciplinary and multi disciplinary education Students should be encouraged to volunteer and participate in practical problem solving and application of textbook education in real-life scenarios to promote real-life and futuristic skills. Enquiry-based learning and skill enhancement from activities and projects should also be an integral part of education as explained in the NEP 2020

16.Academic bank of credits (ABC):

Academic Bank of Credits" means an academic service mechanism as a digital/virtual/online entity established by University Grants Commission to facilitate students to become its academic accounts holder, thereby paving the way for seamless students' mobility between or within degree granting HEIs through a formal systems of credit recognition, credit accumulation, credit transfer and credit redemption to promote distributed and flexible teaching learning. ABC is a bank for academic purposes on the patterned of commercial banks for financial purposes with students as academic account holders to whom ABC shall provide a variety of services including credit verification, credit accumulation, credit transfer or redemption and authentication of academic awards. It aims to promote student centricity in higher education with learner-friendly approaches across the country and promote a more inter-disciplinary approach in higher education. It will enable students to choose the best courses/combination of courses to suit their interest. It will enable students to select the best departments or institutions or their combination to suit their interest It will allow students to choose a pace for their studies along with the associated cost.

17.Skill development:

NEP 2020 focuses on employability and acknowledges the role of education in providing students with the right skillsets. The vision of the government via this initiative is to meet the 2030 Agenda for Sustainable Development, which strives to ensure inclusive and equitable education as well as promote lifelong learning opportunities for all.Skill development should also integrate into the higher education so that after completion of their studies youth can get job with the combination of knowledge and skill.One of the major problems faced by the Nation today is increasing mismatch between education and employment. A big skill gap is noticeable between the industrial demands and students graduating from colleges. So far as higher education is concerned, youth pursuing technical or professional courses get jobs/employment sooner or later, but those who pass with humanities have to wait for a long time. The year 2020-21 was remarkable for Sullamussalam Arabic College,Areekode as organising number of skill development programmes, such as department level programmes, programmes conducted by the career guidance cell etc

18.Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)

National Education Policy (NEP) 2020 refers to the traditional knowledge of India that is both sustainable and strives for the welfare of all. In order to become the Knowledge power in this century, it is imperative that we understand our heritage and teach the world the 'Indian way' of doing things. Ministry of Education has established Indian Knowledge System (IKS) Division in AICTE in 2020 with a vision to promote interdisciplinary and transdisciplinary research on all aspects of Indian Knowledge Systems (IKS), preserve and disseminate IKS knowledge for further research and societal applications. The age old and time tested traditional knowledge lying in the old manuscrpts and books in the Sullamussalam Arabic College Library archives brought into the attention of the students for the research oriented studies. these valuable archives has been utilised by various scholars from the different parts of the nation.

19. Focus on Outcome based education (OBE): Focus on Outcome based education (OBE):

Outcome-based education is a system where all the parts and aspects of education are focused on the outcomes of the course. The students take up courses with a certain goal of developing skills or gaining knowledge and they have to complete the goal by end of the course. Outcome based education is an educational methodology where each aspect of education is organized around a set of goals (outcomes). Students should achieve their goal by the end of the educational process. Throughout the educational experience, all students should be able to achieve their goals. It focuses on measuring student performance through outcomes.The OBE model aims to maximize student learning outcomes by developing their knowledge & skills. The Sullamussalam Arabic College evaluates the attainment of Programme Outcomes, Programme specific outcomes and Course Outcomes at regular intervals. The IQAC of the college along with various departments, measure the programme outcome on the basis of placement of the students, admission to the higher studies, Projects and internships obtained by the students, etc. The attainment of course outcomes is evaluated in multiple ways ie, Internal Exam Evaluation, External Exam Result Evaluation Feedback of the Students, Parents, and Alumni.etc

Academic Planning		
 IQAC created an onlinemonitoring system at the college during the pandemic. An academic calendar that is congruent with the affiliating university's calendar, outlining the schedule of all academic events, is developed. Each department plans the coursework delivery of its curriculum, and each teacher records this progress in the Teacher's Diary, which the HOD certifies at the end of each semester. Each student receives a calendar and the student handbook at the start of the academic year. 		
Effectiveness of Curriculum Delivery		
• Every semester, one centralized internal exam is		

conducted.

- For internal evaluation, students submit assignments and present lectures on assigned topics.
- Students are prompted for feedback on the curriculum, and required actions are implemented.
- To ascertain practical experience, industrial visits, study tours, and field visits are organized.
- Each department conducts a bridge course for first-year students at the beginning of the program.
- Each department offers additional certificate courses.

Innovation in Curriculum Delivery and Documentation

- The college urges teachers to conduct subject-specific workshops, symposiums, conferences, and seminars and to attend those held at other institutions.

reason or engaged in some activities in the college, a retest is conducted. Every teacher is required to submit the printed and untapped question papers to the coordinator of the internal exam before the commencement of the examination. We have officially constituted an 'Internal Examination Wing'. The results of centralized internal examinations are published within days after the completion of the exam. The internal mark is published on the department notice board. The signature of students is obtained in the register concerned. The complaints regarding the obtained internal marks could be redressed at the department and college level redressal cell properly.

2.5.2 - Mechanism to deal with internal examination related grievances is transparent, timebound and efficient

To ensure a time-bound and efficient Redressal of Grievances in the institution, a two-tier redressal mechanism is followed. 1. Department level 2. Institutional level. The department-level grievance redressal cell runs under the supervision of the concerned department heads. All the faculty members of the respective departments are members of this cell. The college has a Central Grievance Redressal Cell under the supervision of the Principal consisting of all heads of the departments along with two student representatives recommended by the students' union. The grievance related to the centralized examinations can be put in the grievance redressal box, and the grievance cell convener promptly and judiciously addresses and respond to the grievances. Attendance-related grievances are addressed by the department grievance cell according to the University of Calicut API norms. The shortage of attendance due to the participation of College level programs like NSS and Fine Arts are compensated as per the university norms to the condition of showing the participation certificate.

External examinations are conducted according to the university examination schedule and calendar under the supervision of the Chief Superintendent of examinations. The grievance concerning external examination will be initially addressed by the Central Grievance cell. The students can apply for the revaluation according to the University rules under the supervision of the central grievance redressal Cell Convener.

The college follows a well-established system for the
maintenance and utilization of its physical and academic
facilities to ensure their sustainability. This is primarily
achieved through the monitoring of various committees like IQAC,
College Council, Building Committee, Purchase Committee, and PTA

with necessary support systems. These bodies give timely instructions and advice on the construction and renovation of buildings, procurement, and maintenance of equipment, and the proper upkeep of other facilities. The college emphasizes maintaining all its assets properly for long-term use and thus has evoked in every employee and stakeholder a feeling of belongingness. The college ensures transparency, efficiency, and accountability concerning the maintenance and utilization of its facilities. Every department has common procedures to receive complaints and directions from students and parents for overall betterment. The department keeps complaints and maintenance registers. The periodic department meetings discuss the problems and they are timely reported and actions are taken. As the government does not permit the appointment of staff for maintenance and repair, the institution seeks help from external agencies.

5.3.2 - Institution facilitates students' representation and engagement in various administrative, co-curricular and extracurricular activities (student council/ students representation on various bodies as per established processes and norms)

The College gives ample representation to students in various decision-making bodies. The Union comprises of Union Chairperson, ViceChairperson, General Secretary, Joint Secretary, Fine Arts Secretary, General Captain, and Student Editor.
